TO : FCC

Distribution Center

I strongly support and endorse petition RM-10620 submitted by Dale Reich, K8AD. This petition asks the FCC to automatically upgrade Novice and Advances amateur radion licenses to the next license class if the licensee has 20 or more years of operating experience.

In my case, I have been continuously licensed and operating since 1956 under the amateur radio call signs KN9ATM (novice), K9ATM (general), K4FZZ (general), K4FZZ (advanced).

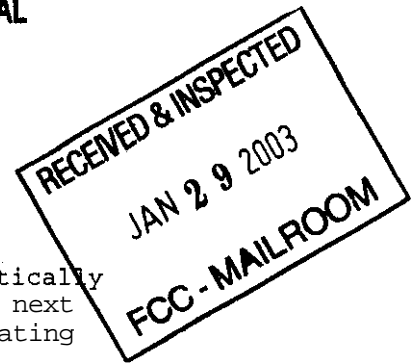

Over the years, in spite of upgrading to higher class licenses, changes in license class priviledges have reduced the spectrum available to me for operations.

I strongly feel that these priviledge reductions have reduced the ability of me and other experienced amateur radio operato'rs like me be able to fully respond to and perform public service functions and duties should the need arise.

For these reasons I respectfully request FCC to approve RM-10620 as petitioned by Dale Reich. In this day and time, I believe that it is especially important to empower experienced operators to the maximum possible extent Should the need for a large pool of experiencea, technically competent operators be needed to serve the interests of our country.

Regards,
Milton Navrenchan/K4FZZ

Mr. Dale E. Reich, CE-22884
141 North Center Street Rt 3
Seville, Ohio 44273-9504

Dear Dale,

I would like to personally thank you for volunteering your valuable time in the efforts of the NRE/COLE Test Center OH-3 on December 21, 2002. I know that each examinee and the other examiners appreciate your dedication, without which the test center could not uphold the objectives of the NRE...to provide widely available Commercial Radio Operator license examinations.

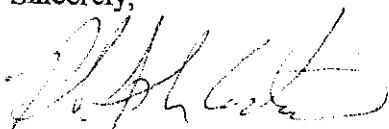

Our next exam session is not yet scheduled, but will probably be in February 2003. I may again call on you for that session, or another session scheduled in the future. **I will mail** you a copy of the **test** center examination dates for your reference as soon **as** details are **finalized**.

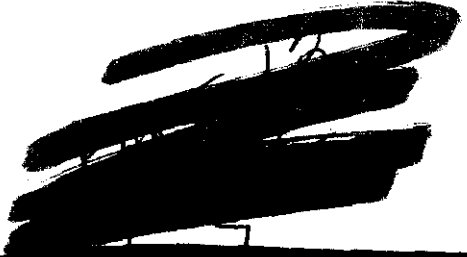

We **will** continue to be offering all exams at these sessions: General Radiotelephone Operator, GMDSS Operator and Maintainer, Radar Endorsement, **First**, Second and Third Class Radiotelegraph tests, **and** the Morse code examinations.

Again, thank you for your time. I look forward to working with **you** in the future.

Happy Holidays!

Sincerely,

Philip L. Carter, Manager

I Think that QRZ is a great place to post "Ham Political" statments:

 The last (2) statment boards had great reviews, keep up the Best work, Make ing, we need more "YL's, and "XYL's, as well as teen's in Ham Radio! Thanks for your Support! 73
